ola Guest28665: this channel is only for technical support. for social talk join #ubuntu-offtopic ppf: probably a few ffff iam fag Guest28665: /msg nickserv ghost Guest28665 hey Guest28665: no spamming in this channel Guest28665: also /quit ok !language | Guest28665 Guest28665: The main Ubuntu channels require that you speak in calm, polite English. For other languages, please visit EriC^^: i don't care which one it's on, the important thing is to have ubuntu boot ;) ppf: check your bios settings ppf: boot ubuntu in UEFI mode EriC^^: can't, this is a system for a friend !uefi | ppf ppf: UEFI is a specification that defines a software interface between an operating system and platform firmware. It is meant as a replacement for the BIOS. For information on how to set up and install Ubuntu and its derivatives on UEFI machines please read ppf: you can enable legacy mode in your bios EriC^^: i've got nothing in bios ppf: there's probably a key combination to enable it yeah, that's for x86, this is ARM ppf: ah, ok EriC^^: it's supposed to be x86_64, sorry ppf: you can try what k1l_ said, remove quiet splash and see what the boot screen is like k1l_: i've tried everything i could find on the subject, it's too late now to try your suggestions 82157476af
